

## SIMPLE DIODE TESTING FOR CHECKING OUR DIODE PRODUCTS

TAP FINGERS  
ON CENTER  
OF FOREHEAD  
SLIGHTLY ABOVE  
THE EYES, TO  
WAKE UP YOUR  
ELECTRICAL  
SYSTEM

FOR TESTING,  
PLACE ITEMS IN  
LEFT HAND

P.O. Box 12430  
Scottsdale, AZ 85267-2430

## SIMPLE MUSCLE TESTING FOR CHECKING OUR DIODE PRODUCTS

CHECKING FOR YOUR BASE ENERGY - The tester should stand in front of the person to be tested. Have the person to be tested extend their right arm straight out from the shoulder. Tell the person to resist – then push down on their right arm. The right arm should stay strong. If the right arm goes down then they are testing weak and their electrical system is not aligned.

Have them take their fingers and tap a few times in the center of the forehead between the eyes. This should wake up their electrical system. Test again and their arm should stay strong.

TESTING FOR NEGATIVE ENERGIES - Place a cell phone or any negative substance such as sugar, cigarette, etc., in their left hand. Again extend their right arm straight out from the shoulder. Tell the person to resist – then push down on their right arm. The right arm should go weak.

TESTING WITH DIODES - Now place a cell phone diode with a cell phone, or you can check other diode products with negative substances by holding them in the left hand; again have them extend their right arm straight out from the shoulder. Tell the person to resist – then push down on their right arm. The right arm should stay strong.

This means your diode is working with your body's electrical system to protect you from negative energies. It is holding your meridians in perfect balance.
